Software engineering student ranked **first in his major** in Computer Science at ENSAM, seeking an internship of the end of the year's project . Proven track record delivering production-grade platforms and leading technical teams — driven by intellectual curiosity, shaped by real-world impact.

## EDUCATION

**National School of Arts and Crafts — ENSAM Meknès** *Meknès, Morocco*
*Engineering Cycle · Computer Science: Software Engineering & Intelligent Systems* *Expected 2027*
*Top of Major GI-ILSI (ranked 1st within the Computer Science department)*

**Ibn-Yassin High School** *Khouribga, Morocco*
*Baccalaureate, Physics & Chemistry — **Highest Honours*** *2022*

## WORK EXPERIENCE

**OCP Group** *Morocco*
*Software Engineering Intern* *Summer 2024*

- Designed and deployed **OCPInterns**, a full-cycle internship management platform — centralising applications, evaluations and onboarding workflows through secure **REST APIs** with **JWT** authentication.
- Delivered analytics dashboards, automated **PDF generation** and **QR-code verification**, improving process transparency and reducing administrative overhead.

## ACTIVITIES & INVOLVEMENT

**Computer Science Club — ENSAM** *Meknès*
*Competitive Programming Pole Leader* *2023 – Present*

- Mentored 30+ students in algorithms and competitive programming; grew active participation by over **200%** through structured weekly training sessions.

**Caravane El Hayat** *Meknès*
*Social Media Specialist & IT Lead* *2023 – Present*

- Built **WASSAL**, an internal coordination platform; managed digital communications for a 15-member team; contributed to campaigns raising over **200,000 MAD** for charitable causes.

**National Algorithmic Competition — Arts and Crafts** *2024*
*Contestant* Ranked **1st at ENSAM** and **15th nationally**

## PROJECTS

**eGrading — Digital Examination Platform** *Java · Spring Boot · React · PostgreSQL · JWT · Flyway · Docker*

- Full-cycle digital evaluation system (exam creation, automatic grading, results dashboards) built with **Agile** methodology; secured via **JWT**, database-versioned with **Flyway**, **REST API** frontend (React, Axios, Zod).

**Facial Emotion Recognition via Deep Learning** *Python · TensorFlow · CNN · Transfer Learning · FER-2013*

- **CNN** models with transfer learning to classify 7 emotional states; full ML pipeline with data augmentation and weighted F1-score evaluation on the FER-2013 dataset.

**Collaborative Task Manager — Mobile App** *Flutter · Dart · REST API · Real-Time Sync*

- Cross-platform mobile application for real-time task synchronisation via **REST API**, built with a modular and scalable architecture.

## CERTIFICATIONS

**Oracle Cloud Infrastructure Foundations Associate** issued by **Oracle**
**MongoDB Developer Path (Node.js)** issued by **MongoDB**

## SKILLS

**Languages:** Java, Python, JavaScript, C++, Dart, Bash **Databases:** MySQL, OracleDB, PostgreSQL, MongoDB, Redis
**Frameworks:** Spring Boot, React, Flask, Flutter, TailwindCSS **Tools:** Git, Docker, Vercel, Netlify, Figma, Linux
**Soft Skills:** Problem Solving · Rigour & Precision · Teamwork

## LANGUAGES

Arabic *(Native)* English *(Fluent)* French *(Fluent)*
